NAD+ INFUSION

Nicotinamide Adenine Dinucleotide (NAD+) is one of the most important cofactors' for improving mitochondrial function. Our body naturally makes NAD but depletes overtime. This drip may help improve mental clarity, alertness, concentration, and memory. It may also help with athletic performance, chronic fatigue, and pain management. This infusion is 1,000 mL saline bag. Please, plan for 2 hours for 100 mg-250 mg and 4 hours for 500 mg.

Pricing:

- 100 mg: \$225.00
- 250 mg: \$300.00
- 500 mg: \$550.00
